

STUDY:

MEDIA IMPACT ON THE RECOVERY PROCESS OF FEMALE SURVIVORS OF SEXUAL ASSAULT

- Are you a woman between 18-34 years old?
- Have you experienced sexual assault since you were 14 years old?

If you answered yes to these questions, you may be eligible to participate in a mental health research study.

The purpose of this research study is to determine if stories about sexual violence covered in the news or social media have an impact on the psychological recovery of survivors. Eligible participants will complete a 1 to 1.5 hour interview with a trained clinician discussing these topics. Participants will receive a gift card incentive.

This study is being conducted at the Couple and Family Therapy Clinic at Michigan State University:

804 Service Rd., Suite A233
East Lansing, MI 48824
